

C&J Marine Ltd

WINTER OFFER DECEMBER 1ST 2016 – JANUARY 15TH 2017

Looking for the perfect gift this Christmas?

Are your covers or sails looking tired and in need of a new lease of life?

Do you feel like treating yourself, the family or your beautiful boat to some fantastic new canopies ready for the spring season?

We'll look no further as C&J Marine are proud to be offering a selection of fantastic offers to suit everyone this winter, to prepare your vessel for the new season!

Cockpit Enclosure

For much easier storage, C&J Marine can create extra joins and splits in the marine grade stainless steel framework as an optional extra.

It comes complete with an innovative colour coding system to make storing and erecting much easier. Complete with separate storage bags for both the framework and canvas, the enclosure is perfectly protected when not in use.

Bimini

For ease of storage the C&J Bimini can be held in place aft by stainless steel support bars tensioned forward with strong adjustable webbing straps. When the Bimini is not required, the webbing straps can be quickly released to fold aft against the support bars. Once stowed in this position, a separate acrylic canvas pouch is zipped on to the Bimini to protect and contain it neatly. The kit also provides storage bags for the spilt framework, to keep it all safe and secure.

Sprayhood

It's a well known scenario to grab the rear of the Sprayhood when moving around the cockpit, and as with fabric it can tend to chafe and become dirty. After lengthy research the C&J Marine Grab Handle was developed to eliminate this problem. Manufactured from the same high quality, marine grade stainless steel, as the sprayhood frames, this is the perfect addition to any Sprayhood.

Laundry Services

Regular maintenance of your valuable sails and covers will help sustain the life of your investment. Here at C&J we recommend and provide a service that ensures your sails and covers are professionally inspected, cleaned, serviced and repaired. Our services extend to your garden; protect and maintain the quality of your garden furniture cushions, parasols and protective covers with the same professional care to have them looking good as new for the new spring season.
